### **DETAILED ACTION**

1. This office action is in response to the amendment filed on 3/4/04. In light of the amendment to the claims and the arguments all previous rejections are withdrawn.

#### ***Claim Objections***

2. Claims 33-34 are objected to because of the following informalities: it is suggested to either use the term secure or the term fasten in the claims rather than interchanging the two for the sake of clarity and consistency.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 33 is rejected under 35 U.S.C. 102(b) as being anticipated by CH 342241.

CH 342241 discloses a method for drawing paper webs through a longitudinal folding hopper wherein a plurality of continuous paper webs are provided to a draw in device (17) with a plurality of paper web holding devices (19) so that the holding devices (19) secure the plurality of paper webs together prior to entry of the paper webs into longitudinal folding hopper (5), the draw in device then draws the secured paper webs through the longitudinal folding hopper (5) and the paper webs are separated from the holding devices (19) after accomplishing the drawing in and prior to production. The plurality of paper webs is only secured together by the holding devices during the

drawing in process (See English translation pages 4-5 and Figures 1 and 2). CH 342241 anticipates claim 33.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 34 is rejected under 35 U.S.C. 103(a) as being unpatentable over CH 342241 in view of Michalik et al (U.S. Patent 5,503,379).

CH 342241 is relied upon for the teachings noted above and is silent towards joining paper web starts to previously drawn in paper webs to form a paper web train. However, such is well known and conventional in the paper draw in art, as shown for example in Michalik et al (See Figure 3). It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate conventional practices, such as connecting paper web starts to already drawn in paper webs to form a paper web train, in the method of CH 342241 as suggested in Michalik et al.

***Response to Amendment***

7. It is noted that an art rejection was not made over claims 33 and 34 in the previous office action because the claims had limitations not suggested in the prior art that have been removed in the present amendment.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John T. Haran** whose telephone number is **(571) 272-1217**. The examiner can normally be reached on M-Th (8 - 5) and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
